Sir:

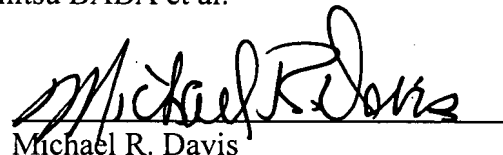

There is an Examiner-initialed PTO 1449 Form attached to the Office Action of July 31, 2007, which was based on the IDS filed September 29, 2004, which in turn was based on the International Search Report. The Examiner has crossed out all of the foreign patent documents, indicating that copies of them have not been provided. When Applicants filed the IDS, it was thought that WIPO would send copies of the references to the U.S. PTO. Since that time, it has been learned that this is no longer the case.

Accordingly, copies of the foreign patent documents are submitted herewith, together with English abstracts of the foreign language references, and another PTO-1449 form citing these references. [The month of publication for the WO '623 reference has been corrected on the PTO-1449 form.] The Examiner is kindly requested to initial these references, and send a copy of the initialed form to Applicants' attorney.

Respectfully submitted,

Toshimitsu BABA et al.
